

Hello,

As the year draws to a close, our new products continue to arrive, like surprises under the tree! Discover our new garlands and hanging plants, which shine with authenticity, as well as our 310 cm pine tree with or without its fireproof armor! And that's not all: a canna that will arouse envy, a foliage that deserves to shine on its own, not forgetting our spathiphyllums, available in two sizes.

Vert Espace will be in vacation mode, closing from December 25, 2024 to January 1<sup>er</sup>, 2025 inclusive. It's time to recharge our batteries for a year 2025 that's already shaping up to be full of surprises and new products!

The whole team wishes you a wonderful holiday season! 🎄🌟

### WELCOME TO OUR NEW 310 CM TALL MARITIME PINE!

You imagined it: we made it! It's available with or without fire treatment. Both trees are visually identical. The only distinction lies in the manufacturing process, which makes one tree fireproof (certificate in pocket) and not the other. You can see them at our showroom in Bezons, France ( 15 min from Charles de Gaulle airport).
